d line
KNUD HOLSCHER DESIGN

Exclusively available from:

 MB Architectural
Belfast

Introduction

Exclusively available from MB Architectural in Northern Ireland, **d line** door handles incorporate a concealed fixing mechanism using sectional countersunk bolts. Levers operate effortlessly due to the unique **d line** bearing assembly. These and other features, specially developed by **d line** have been integrated into the design in order to optimise reliability and endurance.

Optimum strength has been achieved by manufacturing all bends with a solid insert of either brass or aluminium, creating the unique characteristic that the radius of the bend equals the diameter of the tube. This detail gives the range its aesthetic appeal.

A heavy duty classification under BS EN1906 is evidence to the fact that **d line** lever operate smoothly, even when used aggressively over time.

d line pull handles adhere to the stringent design principles of Knud Holscher. The scope of standard lengths make them particularly suitable for a wide range of applications. The range of pull handles consists of, straight pulls, cranked pulls and circular pulls.

Available lever and pull handle finishes:

Satin stainless steel.

Polished stainless steel.

Pull handle fixing options:

Bolt through fixing.

Secret face fixing.

Back-to-back fixing.

Back-to-back fixing for glass doors.

MB Architectural is part of Macnaughton Blair Architectural Division. MB Architectural can schedule your project requirements with all items adhering to the latest British and European standards as well as meeting the requirements of building regulations and of course BS 8300.

The Architectural Division specialises in a complete solution, incorporating not just the door furniture but also the mechanical and electrical items required to ensure we meet the buildings design and security needs.

Extensive group wide stocks and our own in-house master keying facility offers the client security and gives us flexibility in meeting the most demanding delivery schedule with a comprehensive range of locking options from entry level through to very high security cylinders.

Also available group wide is the supply and installation of access control and door automation products as well as signage and wayfinding scheduling, anti-ligature hardware, mail systems and bespoke hardware products.

The **d line** range of door furniture is only one aspect of our offer and we would encourage you to contact us or visit our website for further information regarding other ranges and finishes.
