# Introduction

Exclusively available from MB Architectural in Northern Ireland, the **modric** range of door furniture has been designed by Alan Tye Design and produced by Allgood.

This progressive programme was conceived in 1965 on the basis of a dimensionally and aesthetically co-ordinated range of items to allow maximum interchangeability.

The principle of modular unsprung components was revolutionary and **modric** soon became a design classic.

Today **modric** represents a timeless, clean-cut range of door furniture available in a number of metallic finishes.

Products are hand finished to provide the very best quality available. **modric** is known for fine design and extraordinary durability.

## Key to finishes:

- SS      Satin stainless steel.
- PS      Polished stainless steel.
- MA      Anodised aluminium.

MB Architectural is part of Macnaughton Blair Architectural Division. MB Architectural can schedule your project requirements with all items adhering to the latest British and European standards as well as meeting the requirements of building regulations and of course BS 8300.

The Architectural Division specialises in a complete solution, incorporating not just the door furniture but also the mechanical and electrical items required to ensure we meet the buildings design and security needs.

Extensive group wide stocks and our own in-house master keying facility offers the client security and gives us flexibility in meeting the most demanding delivery schedule with a comprehensive range of locking options from entry level through to very high security cylinders.

Also available group wide is the supply and installation of access control and door automation products as well as signage and wayfinding scheduling, anti-ligature hardware, mail systems and bespoke hardware products.

The **modric** range of door furniture is only one aspect of our offer and we would encourage you to contact us or visit our website for further information regarding other ranges and finishes.
